SUMMARY

Computer Science & Engineering undergraduate (CGPA 3.90) who designs and ships desktop applications, Windows utilities, and full-stack web platforms. Hands-on experience with Rust, C++, React, SvelteKit, and SQL-backed systems, including packaged, downloadable desktop releases. Also mentors students in data structures and algorithms as a departmental teaching assistant.

EDUCATION

B.Sc. in Computer Science & Engineering

Aug 2023 – Expected 2028

United International University • CGPA: 3.90 • Currently in 9th trimester

- Awarded multiple 25% and 50% merit scholarships during undergraduate studies.
- **Relevant coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Microprocessors.

EXPERIENCE

Undergraduate Assistant (UGA)

Department of Computer Science & Engineering, United International University • Data Structures and Algorithms I & II

- Mentored approximately 80 students across two trimesters through regular one-on-one and group consultations.
- Guided students in implementing data structures and algorithms and in solving problems in C/C++.
- Diagnosed and debugged students' C/C++ programs, and provided academic support alongside faculty.

SELECTED PROJECTS

Taskora

github.com/HexCore99/Taskora

Tauri 2 • Rust • React • SQLite • Zustand

- Built a Kanban desktop app that brings projects, boards, and task details into a single workspace.
- Implemented a Rust backend with SQLite for on-device storage; published downloadable release builds.

WhoLocks

github.com/HexCore99/wholocks

Rust • Windows • CLI & GUI

- Built a Windows utility that identifies which processes are locking files or folders.
- Added File Explorer integration and both CLI and GUI workflows; published downloadable releases.

QuickJudge

github.com/HexCore99/QuickJudge

React • Express • MySQL • Redux Toolkit • JWT

- Developed an online judge and programming-contest platform with problem sets, submissions, and leaderboards.
- Implemented JWT-authenticated student and admin workflows on a SQL-backed application.

GearGuard

github.com/HexCore99/GearGuard

React • Vite • Tailwind CSS • React Router

- Built a university sports-equipment app to track availability, equipment condition, maintenance, and checkout workflows.

Neural Movie Recommender

github.com/HexCore99/neural-movie-recommender

Python • TensorFlow/Keras • Flask • Next.js

- Integrated a neural collaborative filtering model with a Flask API and a Next.js interface for movie browsing and personalized recommendations.

TECHNICAL SKILLS

Languages

C, C++, Rust, Python, Java, JavaScript, TypeScript

Desktop / Systems

Tauri 2, raylib, SDL3, CLI tools, Windows file-system tooling

Frontend

React, SvelteKit, Next.js, Tailwind CSS, Zustand, Redux Toolkit

Backend / Data

Express, Flask, SQLite, MySQL, JWT, TensorFlow/Keras
